## LESSER / GREATER CONIQUE BOX

The Conique Box is made in teak using a tapered form construction borrowed from the elegant jewellery boxes of Java. Within is a floating tray. The walls are finished in Opium Lacquer: panels of shagreen reveal themselves from within the smoky layers of lacquer that cover them. The tray is lined with two tones of natural red lacquer and a black lacquer edge. The lower scalloped edges are gilded and the feet are also reminiscent of Javanese forms.
